

HD THEATER

A HIGH-DEF PICTURE DEMANDS HIGH-DEF SOUND

Sound accounts for half of the home theater experience, whether you're watching a movie or sporting event—or even playing a video game. So, if you own an HDTV and don't have high-definition surround sound to go with it, it's like having a Ferrari without the engine.

Our sleek, simple and small HD Theater speaker packages deliver everything the HD video experience has to offer—crisp dialogue, brilliant music and explosive special effects. These systems also provide the premium high-output, low-distortion sound reproduction that Klipsch is known for, but at prices that are among the lowest in company history.

Our savvy designers applied decades of research and development experience to successfully value engineer these systems, while staying true to our audiophile heritage.

After all, everyone deserves to experience the full power, detail and emotion of their entertainment.

Each HD Theater product utilizes durable, high-quality components, while also featuring the same tried-and-true horn-loaded technology that has made Klipsch an industry leader for over 60 years. In fact, over half of all new movie theaters in the U.S. choose Klipsch professional products because of the amazing benefits of horn-loaded technology.

When updating your A/V equipment just remember that your TV is only one piece of the home theater puzzle. It's the audio that drives the action, creates the mood and brings your video content to life. So, start making your music and movies really matter—grab hold of a Klipsch HD Theater system today!

HD THEATER

SPEND LESS, ENJOY LIFE MORE

1 0 0 0

A live concert performance or heartfelt movie-going experience frees us from daily complications and emotionally connects us with others. The HD Theater 1000 brings that same enjoyment to the music and films you play at home, delivering jaw drops and sighs like never before.

The HD Theater 1000 does more than just fill larger rooms with pristine performances; it looks great next to any flat-panel TV and offers simple set up and operation.

Each identical speaker is magnetically shielded—so it won't interfere with your TV picture—and can be positioned vertically or horizontally without sacrificing performance. The $\frac{1}{4}$ -20 threaded inserts make stand or wall bracket mounting a breeze.

The system's subwoofer is also quite versatile, as it includes traditional volume, crossover and phase controls, so you can customize the level of bass for your room. But more than that, this powerhouse's 10-inch driver makes sure you hear—and feel—every drum beat and explosion.

PERFECT FOR MEDIUM-SIZED ROOMS

\$599.99 U.S. MSRP

HD THEATER

SCALED UP SOUND, SCALED DOWN PRICE

5 0 0

Don't let its small size fool you; the HD Theater 500 promises to fill your heart with joy without emptying your wallet. As a matter of fact, it has what it takes to satisfy even the most skeptical of listeners. From punk rock to classical jazz and from shoot'em up movies to tear-jerker films, this system shines.

A great solution for medium-sized rooms, the HD Theater 500 perfectly complements any flat-panel TV, while also offering simple set up and complete installation flexibility.

Each speaker, which can be positioned horizontally or vertically, comes with an adjustable wall bracket with a 40° range of motion and 1/4-20 inserts for optional floor-stand mounting. The center channel is magnetically shielded so it won't interfere with your TV picture and includes a cradle base with a 45° range of motion.

The system's subwoofer is also quite versatile, as it includes traditional volume, crossover and phase controls, so you can customize the level of bass for your room. But more than that, this heavy-hitter's 8-inch driver delivers room-rocking performances.

PERFECT FOR SMALLER ROOMS

\$399.99 U.S. MSRP

SWEET SOUND, SWEETER PRICE

3 0 0

Even though it's the most affordable Klipsch surround sound system ever, the HD Theater 300 takes a no-nonsense approach to lifelike audio reproduction. You'll be swept away by the sheer dynamics of every film, song or video game. Make no mistake, this little system equals extreme thrills and chills when it counts.

Perfect for smaller rooms, the HD Theater 300 looks great next to any flat-panel TV and offers simple set up and operation.

Each speaker, which can be positioned horizontally or vertically, comes with an adjustable wall bracket with a 40° range of motion and 1/4-20 inserts for stand mounting. The magnetically shielded center channel won't interfere with your TV picture and includes a cradle base with a 45° range of motion. All qualities that give you complete installation flexibility.

The system's subwoofer is also quite versatile, as it includes traditional volume, crossover and phase controls, so you can customize the level of bass for your room. But more than that, the subwoofer's 6.5-inch driver delivers serious heart-thumping effects.
